## Maicol MP

---

Maicol MP was born in 1991 in the province of Treviso. During his childhood he performed many activities in the field of music, including the study of the piano and the Sound Technician.

At age 16 he finally discovered the music in which he recognized himself the most and, simultaneously, he began to hang out at the Clubs: these facts make his musical passion always lead him to improve and refine himself, expressing himself as an artist around in the clubs, growing and evolving in this profession.

His trips to Berlin and in the capitals of Europe were fundamental and essential for his transition to the genre and style that he still proposes and which distinguishes him.

He has a clear idea of what he wants to express, he knows well what must represent and the continuous music selection: know being an innovator, so he is always searching to bring new lymph.
